WilsonHCG's proprietary next-generation MSP solution, WilsonCRO™ (contigent resource outsourcing), offers an engaging, high-touch, and personalized candidate and hiring manager experience. A modern alternative to traditional MSP models.

Our transformation consultants can help you through periods of change and the associated challenges – from process analysis and optimization to diversity, equity and inclusion assessment and consultation.

Technology Advisory

There are so many options when it comes to talent technology, so let our dedicated innovation and technology teams research, recommend, implement and configure new technologies that will enhance your talent processes or run an audit on your existing tech stack to ensure you're operating at your full potential.
