OUR DIRECTORS

SEAN T ELLIS, AIA
Principal Architect, Founder

Sean oversees all of the Architecture and Design related matters of the company and works directly with Clients to help bring the projects to reality.

Sean is an Architect registered in New York State, USA, and a member of the American Institute of Architects since 2013. Born in West Palm Beach, Florida, has lived and worked in Kentucky, New York City, and currently Hong Kong. He has previous experience at several international design architecture firms including Studio Libeskind and UNStudio. He has a wide range of experience working on high-profile commercial, residential and cultural projects throughout Asia, Europe, and the USA.

Bonnie ZHANG Fengyi
Business Development

ZHANG Fengyi, or Bonnie, is the Head of Business Development within Asia with a focus on Mainland China. She has many years of experience ranging from education to sales and marketing in linguistics. She is from Nanjing, China, and currently lives in Hong Kong.

Bonnie plays an integral role as our primary contact and communicator for our operations in China with clients, manufacturers, contractors, and suppliers.

OUR TEAM AND NETWORK

NETWORK OF TEAM MEMBERS, COLLEAGUES AND VIRTUAL EMPLOYEES

ALLOWS US TO EXPAND AND CONTRACT WITH PROJECT NEEDS

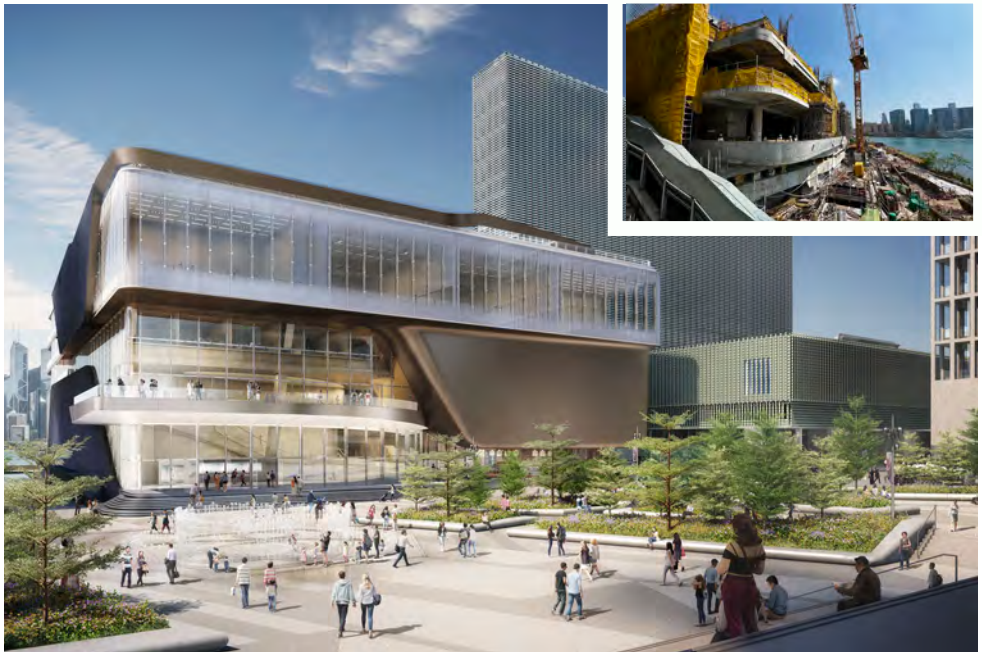
OUR PRIOR EXPERIENCE

SELECTED PROJECTS:



LYRIC THEATRE COMPLEX

West Kowloon, Hong Kong (In Construction)

Credit: UNStudio (ADRG, UAJV), Rendering by DBOX

- The Lyric Theatre Complex in the West Kowloon Cultural District is comprised of three theatres, Resident Dance Company Centre, Large Rehearsal Hall and Restaurants. Situated above the Airport Express Railway Line, the building has been set on approximately 700 springs to ensure silence during performances.

RUN RUN SHAW CREATIVE MEDIA CENTRE

Hong Kong (Completed 2010)

Credit: Studio Libeskind (L&O), Photo Credit: © CityU / Gollings Photography PTY Ltd

- The Run Run Shaw Creative Media Centre was a competition hosted by City University of Hong Kong in Shek Kip Mei Kowloon. Sited on the base of a mountain the new 9-floor, 263,000-square-feet (24,400 sq.m.) facility has projected the University to become the first in Asia to offer the highest level of education in the creative media fields.
