INTERNATIONAL TAX AND BEYOND

Since 2021.01.14

INTRO

International tax becomes one of the most important considerations for high net worth individuals and multinational corporations going global. Our vision is to provide professional one-stop international tax services from planning to implementation.

INTERNATIONAL TAX

We assist high net worth individuals and multinational corporations on international tax management when they go global such as immigration, investment and expansion of business. We identify any international tax issues and saving opportunities, design solid plan to address them, and help you implement them successfully.

CROSS-BORDER STRUCTURE

We design and build investment and financing structures for high-net-worth individuals and multinational enterprises to ensure tax efficiency, confidentiality, and security. We are a licensed secretarial company in Hong Kong and cooperate with professional partners to open offshore companies, trusts, and foundations.

GLOBAL IDENTITY

We analyze the global tax implications on high-net-worth individuals and families and propose the best global identities and residency for them. We also offer Residency and Citizenship by Investment plans in Hong Kong, Dubai, and Turkey.

CRS & CARF

We offer to high net worth individuals and multinational enterprises how they manage the automatic global exchange of financial and crypto assets to ensure that the information is accurately exchanged to the target tax residence in full compliance with rules in Common Reporting Standard ("CRS") and Crypto-Asset Reporting Standard ("CARF").
