

# Hong Kong's AI Accounting Platform.

Built by accountants. Powered by AI - a co-pilot for the way Hong Kong businesses keep their books.

500+ SMES ONBOARDED

TCSP LICENSED

HKSTP INCUBATEE

AWS EMPOWERED

## 01 Our Solution

### Capture

Scan receipts, upload invoices, and import bank statements in seconds. Our AI extracts every line automatically, so no manual keying is needed.

### Reconcile

Match transactions across multiple banks and ledgers with ease. Anomalies are flagged automatically so you can close your books with confidence.

### Report

Generate HK-native reports built on the local Chart of Accounts. Every output is IRD-ready and audit-ready when it counts.

### Collaborate

Bring your SME, accountant, and CPA firm onto one shared platform with role-based permissions for everyone.

## 02 Meet Your AI Co-pilot

### Discuss financials by text or voice

English or Chinese - trained on HK ordinance, standards & tax rules.

### Read any-language receipts

Multi-language OCR; English & Chinese to production quality.

### Reconcile bank statements

Matches transactions across accounts; exceptions flagged.

### Mass-import 100+ documents

Invoices and bills at once - no typing, no reformatting.

### Categorise to your Chart of Accounts

Trained on the HK CoA; learns your specific mapping.

## 03 Why We're Different

### Born in Hong Kong

Built here, for here, by licensed HK CPAs who know IRD rules, the local Chart of Accounts, and how HK businesses keep their books.

### Speaks Your Mother Tongue

Traditional Chinese is built into every screen, report, and AI response from the ground up - never an add-on.

### Affordable Pricing

At HK\$120 a month, you get a full AI accounting platform - enterprise-grade capability, priced for HK SMEs.

### Your Accountant in Your Pocket

An AI co-pilot that knows your business. Ask anything by text or voice, English or Chinese, any hour - no waiting for callbacks.

## 04 Affordable Pricing

### Freemium

Try everything. Pay nothing.
