Trico Service

Established in year 2006, trico interior design and contracting ltd. offers the professional interior design and build solutions for a variety of interior environments. We specialise in a wide aspect of interior spaces, including residential, bars & restaurants, office workspaces and retail outlets, and projects are spread over Hong Kong, Macau and Mainland China. With our obsession of quality and detailing, we provide design project management from the initial design concept on drawing board with pencil and paper, to the construction completion where final touch of paint with brush and bucket.

Trico Concept

Uniqueness in design is not just the blood but also the fact to our projects, as we see every client has unique needs, and trico has always aimed to maintain an open and responsive approach to each individual brief. Interior spaces would not be alive without the interaction of people/ end user, interior spatial should be a place that acts as a creative medium, for people to express inspirationally, culturally and historically. Therefore client's involvement plays a crucial part in the process, and together with our energetic and enthusiastic team, trico is here to execute the clients' needs with our expertise not just creatively but also in an efficient manner on cost and time.

Trico People

Phil Cheng, Director of Design, graduated in University of Arts, London, who lived and worked in the UK over 11 years. Settled in Hong Kong in 2004, he joined a number of renowned design firms, and worked on some largest scale projects in Asia before the formation of trico.

Joe Wong, Director of Construction, who studied at local tertiary polytechnics with related qualification, and has over 20 years of solid experience in construction field. During Joe's career, he has been participating in a number of different scale of projects which made him to be the key person to control the quality of trico's production.

And, a team of young, energetic and creative staffs subtly working behind the scene of each successful project
