Sorting
4C printing
Barcode security matching
Hand delivery network

Case Studies

Background

One of the world's leading **automotive** Tier One suppliers has a manufacturing facility in China producing components for customers **all** over the world.

Challenge

Due to the **COVID-19** outbreak, our client was facing an imminent factory shutdown in Europe.

Highly time sensitive

Limited flights from China

Size of shipments

A solution was needed to ensure the **fastest possible delivery** to the production plant, which requires the expertise of **time critical logistics**.

Solution

Royale International offered a solution that ensured delivery ahead of the customer's expectations.

Day 1

- 15:00** Confirmation
- 16:00** Driver collected goods in China and began the journey to Shenzhen. Our cross-border truck brought the goods to Hong Kong.
- 23:00** Our dedicated couriers took the next available flight to Europe.

Day 2

- 08:00** Connecting flight arrived at destination.
- 10:00** Driver picked up from airport and delivered the goods to client.

At Royale International, we make it happen.
