Open API & Ecosystem

Stablecoin Compliance Issuance Management Platform, based on modular smart contracts, provides issuance, redemption, unified accounts, and compliance risk control, enabling institutions to operate stablecoins efficiently and securely.

Disclosure Of Asset Information

The screenshot displays the 'Performance Analysis' interface of the 'NetworkMiner' application. The top navigation bar includes 'Home', 'Performance Analysis', 'NetworkMiner', and 'Settings'. The main content area is titled 'Performance Analysis' and features a table of network activity. The table has columns for 'ID', 'Name', 'Type', 'Status', and 'Action'. The data rows show various network-related activities, including 'NetworkMiner' and 'NetworkMiner', with statuses like 'Active', 'Inactive', 'Suspended', and 'Error'. The 'Action' column provides options to 'View', 'Edit', 'Delete', and 'Refresh' each entry. The interface is clean and modern, with a light blue and white color scheme.

The screenshot displays the SAP Fiori 'Sales Analysis' app interface. The top navigation bar includes the SAP logo, a user profile icon, and the text 'Sales Analysis'. Below the navigation bar, the main content area is titled 'Sales Analysis' and contains several data visualizations and tables.

Summary Section:

- Sales Analysis:** A bar chart showing sales data for the last 12 months. The Y-axis represents 'Sales' and the X-axis represents 'Month'.
- Sales Analysis:** A line chart showing sales data for the last 12 months. The Y-axis represents 'Sales' and the X-axis represents 'Month'.
- Sales Analysis:** A table showing sales data for the last 12 months. The table has columns for 'Month', 'Sales', and 'Sales'.

Admin Portal

Tokenized deposits are digital liabilities issued by commercial banks on the blockchain, pegged 1:1 to their fiat currency deposits. They represent the customer's claim on bank deposits, are programmable, can be transferred and settled instantly, and are fully supported by the bank's balance sheet.

Cost Reduction & Efficiency Improvement

Integrated Core Banking

| Value-Added Service Solutions

xMarketing

Smart Marketing Toolkit

The smart marketing product is a platform that provides intelligent marketing and digital operation for various offline and online business scenarios such as chain brands, catering, e-commerce, hotels, and retail supermarkets.

User Segmentation & Grouping
