**Scalabl** defines itself as a People Capital, as its focus is to transform the world and develop one entrepreneur at a time, holding a different view of the startup ecosystem by prioritising knowledge, methodology application and community with networking over seed investment.

Scalabl works with global top-notch professionals, intrapreneurs and prospective or experienced entrepreneurs to build great companies by creating Scalabl(e), repeatable, profitable and sustainable business models. The company combines consultancy with its Startup Academy Programme and Incubation or Acceleration Programme.

Founded in Argentina, Scalabl has helped to create over 100 companies. Apart from its current operations in Argentina and Mexico, Scalabl is expanding this year to Hong Kong, India, Emirates, Chile, UK and Singapore. It started its first Startup Academy Programme in Hong Kong sponsored by De’ Longhi Kenwood Group in May.

Scalabl believes in collaboration over competition and looks forward to working together to impact the startup environment in Hong Kong in a positive way.

Earth and Barrow is a specialist supplier of organic-certified, nature farmed chicken. The company championed the traditional farming values of nature farming, guaranteeing the highest levels of animal husbandry, as well as impeccable food safety standards and product quality. Earth and Barrow’s responsible, certified humane and sustainable approach helps Hong Kong retailers meet the ever-growing demand for authentic, nutritional and pure food products.

Distinct from most chicken sold worldwide, Earth and Barrow birds represent the antithesis of mass production and is reared exclusively to order. Unlike most other chicken available, the birds are entirely additive-, hormone- and medication-free, and enjoy an organic, meat-free diet throughout their lives.

The company is now introducing Nature Farmed beef cuts, as well as value added products including organic certified chicken and beef burgers, organic beef meatballs and prepared roast chicken.

amfori believes in a world where all trades deliver social, environmental and economic benefits to everyone, namely “Trade with Purpose”. As the leading global business association for open and sustainable trade, amfori brings over 2,200 retailers, importers, brands and national associations together, representing a combined turnover of more than 1.6 trillion Euros.

The association offers its members a practical framework and world-class tools that enable them to manage the social and environmental performance of their supply chains and anticipate trends. It also advocates for progressive policy and collaborate with high-level stakeholders to achieve common aims. Its work enables organisations to enhance human prosperity, responsible use of natural resources and drive open trade globally. These are major challenges across the world which require a collaborative effort to tackle. While its members can’t solve them on their own, collaborating together can make influence and drive positive change at scale.

Founded in 2014 in Hong Kong, The Artist Craft Brewer is a premium innovative Belgian beer company, focusing on customer experience, innovation, technology and great craft beers.

In March 2018, The Artist House, a new remarkable and premium space, landed in Causeway Bay. It’s a brand new luxury bar and cafe with 3,500 sq. ft., welcoming likeminded craftsmen and women looking for a casual environment to enjoy great craft beer, cocktails and coffee. Its key features include a hydroponic farm, an educational micro-brewery wall to tailor make own infused beer, an edible perfume bar to pair unique fragrances with craft beers, a 360VR tour of the brewery in Belgium and the chance to personalise own beer bottles with pictures, and so on.

In addition to all the exciting workshops and stations, The Artist House is available for private events or gatherings rental.

Founded in 2017 in Hong Kong, JAHMU strives to integrate plant-based nutrition back into people’s modern lifestyle with a belief “food is thy medicine, and medicine is thy food”. JAHMU is a line of handcrafted, plant-based tonics inspired by the principle of Jamu, an Indonesian concept of body, mind and spirit that are in harmony and balance.

JAHMU’s goal is to promote longevity and optimal wellness for the mind and body by offering widespread and sustainable access to herbal tonics of the highest quality. Each tonic serves to rejuvenate and restore all systems of the body, overall good health and balance through its healing compound ingredients. They fortify and nourish, promoting resilience, vigour and wellbeing. JAHMU believes plant-based tonics are the medicine of human.

Based in Hong Kong, **Wholistic Coachsulting Ltd** applies a unique hybrid model of coaching and consulting resulting in sustainable improvement in employee engagement to deliver business strategies and growth.

Within the next five years, 60 percent of Millennials will be based in Asia, but 65 percent of Chinese Millennials are disengaged and expected to leave their companies. High turnover rate results in increased hiring costs, but decreased morale and productivity.

Wholistic Coachsulting offers individual coaching, workshops and consulting services, supporting Millennials and organisation leaders to create inclusive and engaged multi-generational workforces.

The company is the only one in Asia led by a Millennial Leadership Coach who is certified by the International Coaching Federation, and has 14 years of leadership experience in finance, digital transformation and operations at a Fortune 50 company.

The expansion plans include Singapore and Shanghai, and hiring of Hong Kong Millennial talents.

Established in Italy in 2006, Eu.promotions is an international group working with retailers to enhance customer shopping experience, accelerate sales and grow their most valuable customers. The company provides tactical marketing solutions that increase behavioural loyalty to retailers all over Europe.

Headquartered in Milan, the company coordinates six different legal entities in Europe with regional offices in London (Henley-on-Thames), Amsterdam, Riga, Budapest, Saint Petersburg and Hong Kong. The Hong Kong office is the commercial and operative arm in Asia, where Eu promotions executed its main productions since 2009. Due to the expansion and reach of its clients’ activities, Eu promotions is setting up a regional office here in 2018. Reporting to the marketing and product development central office in Milan, the Hong Kong office is responsible for building partnership with suppliers, sourcing new factories and supporting the product development team in Italy on technical issues and quality control.

Piquadro is an Italian brand of tech-design accessories for business travellers. Design, functionality and technological innovation are the core values of the brand, which are expressed through superb Italian craftsmanship, leather of the finest quality and a meticulous attention to detail.

In every collection, Piquadro proposes a wide range of bags, luggage and small leather accessories where the originality and elegance of the Italian style are combined with practicality and reliability, all at the service of work, travel and the intense pace of modern life.

Piquadro exclusively uses the finest Italian leathers with techno-fabrics of the latest generation in both classic and unusual colours. The brand is distributed all over the world and among major locations such as Rome, Milan, Venice, Florence, London, New York, Barcelona, Moscow, Prague, Taipei, and has recently launched a store at Times Square in Hong Kong.

Founded in Japan, Pocket Change is an all-in-one solution for travellers to convert their leftover bills and coins into digital benefits. While Hong Kong has over 64 million global travellers’ traffic yearly, it becomes the first choice of place for the company to set up a base, before considering expanding to Singapore. Hong Kong Airport and MTR Airport Express Stations are the main locations in its expansion plan.

Incorporation of 3D printing, CNC technology and laser cutting, Pocket Change uses Japan-originated technology that has the best precision on differentiating various currencies, proceeding up to 15 major currencies at one time. Pocket Change aims at making the best of the leftover coins and let them flow back to the economic system, which improves market liquidity.

The Trade Commission of Peru was officially opened in mid-February at the Hopewell Centre in Wan Chai and is home to the Trade Commissioner and two Hong Kong-based market specialists to help Asia companies to understand the sourcing, tourism and investment opportunities in Peru. The office is looking to recruit more team members in the near future.

JA prides itself as the “Insurance DealMaker” for clients in the jewellery, pawn broking, luxury goods and money services industries. Established in Singapore since 1999, JA has carved a significant market share in Singapore and Malaysia. In line with its vision to be truly global, it has chosen Hong Kong as its springboard for expansion.

With the clear, open and pro-business guidelines set up by the Hong Kong government, JA believes that Hong Kong offers a transparent and conducive environment for business to compete, grow and flourish. The company has planned multiple phases of expansion in Hong Kong, including introducing its proprietary InsurTech solution that is a first in the market online platform to better insure jewellers.

Emertech considers Hong Kong as a wide, crucial and technology-friendly market, it is also home to lots of representative offices of companies from around the world. The proximity of Hong Kong to Mainland China is also important because it is the largest market for the main product, the anti-counterfeiting service.

Emertech is a company engaged in the development and implementation of solutions based on the blockchain technology. The company develops its own technologies such as high-efficiency and low-cost anti-counterfeit solution for physical and digital products, authentication solution for digital document, and also implements network security solutions (EMCSSH, EMCSSL), technology to reduce cost and increase the quality of telephone calls (Enumer) and others.

The Ministry of Foreign Trade & Tourism of Peru announced the opening of a trade office in Hong Kong during Asia Fruit Logistica 2017 and named Erick Aponte as its Trade Commissioner. Aponte launched and operated the Trade Commission of Peru in Miami for six years prior to relocating to Hong Kong. The Hong Kong office was added to the existing network of offices in Asia, including Beijing, Shanghai, Japan, Indonesia, South Korea and Taiwan, to continue to develop and strengthen the economic and commercial ties between Peru and the region.
**Micepad** is an award-winning digital content and audience engagement app that creates a more engaging and productive experience in conferences and meetings. Balluun is a leading B2B social eCommerce provider. It partners with marketplace operators worldwide to run industry-specific digital marketplace, connecting brands and resellers with digital technologies developed in Silicon Valley.

Balluun’s partnership model allows operators to build a competitive advantage with a low-cost investment and a high revenue share opportunity. The company empowers business-to-business (B2B) communities, commerce and services worldwide by providing patented and established technologies, open and scalable cloud solution, as well as efficient marketing, sales and customer success services.

Balluun chose Hong Kong as its first regional office in Asia because of the city’s unique business positioning - location and talent pool. Located in the heart of Asia and home to Asia’s brightest business executives, Balluun connects to more exciting partnership opportunities, making B2B social commerce marketplaces more accessible in Asia.

Hauser & Wirth is a leading international gallery founded in Zurich in 1992 by Iwan and Manuela Wirth and Ursula Hauser. A family business with a global outlook, it has expanded over the past 26 years to include spaces in Zurich, London, Somerset, New York, Los Angeles, Hong Kong and Gstaad.

Hauser & Wirth represents over 70 artists and estates who have been instrumental in shaping its identity over the past quarter century, and who are the inspiration for Hauser & Wirth’s diverse range of activities that engage with art, education, conservation and sustainability. In 2018, Hauser & Wirth opened its Hong Kong outpost, a first permanent gallery space in Asia in the newly-developed H Queen’s complex. The exhibitions at Hauser & Wirth Hong Kong span the breadth of the gallery’s programme from major 20th century modern masters to leading figures in contemporary art.

AmazingTalker is a Taiwanese startup that provides an online language learning platform for multiple languages. Students can use the platform to interact with native speakers and immerse themselves in a native environment.

AmazingTalker was founded in January 2016. In the first month after it was founded, the company organised over 200 language classes and received over 1,000 applications from teachers across the globe. AmazingTalker uses strict recruitment criteria and aims to provide a premium service for language learners.
Blossomingjuice was founded in Taipei in 2015, specialising in fresh fruit and vegetable juices and homemade fruit liquors. Each drink is handcrafted using a range of colourful swirls and patterns. The company uses visually stunning designs for its stores, website, products and packaging, which are made from recyclable and biodegradable materials. Blossomingjuice has a number of stores in Taiwan and uses a combination of online and in-store marketing strategies. In 2018 the company opened its first store in Hong Kong, and it plans to open additional stores in the near future to serve Taiwan’s popular soft drinks to Hong Kong customers.

Founded in early 2014 in Taipei, eCloudvalley Technology provides consultancy services and technical support for Amazon Web Services (AWS). Core services include AWS cloud infrastructure such as cloud storage, disaster recovery, cloud server hosting, server monitoring, DevOps, big data, serverless and container solutions and AWS training. The company also provides consultancy services to help clients assess the security of cloud environments, detect architecture vulnerabilities, optimise system efficiency and reduce IT maintenance costs. eCloudvalley Technology entered the Hong Kong market in 2016 and also has a presence in other markets, including Mainland China and the Philippines. It is the first AWS Premier Consulting Partner in the Greater China region and has received over 130 AWS licenses. The company has provided services to more than 400 clients and 50 system integrators.

Brothers Ton Kunchat and Tum Mardsua are practitioners of the Thai martial arts, Muaythai, and belong to the elite group of certified World Muaythai Council professionals. They were invited to join a world class Mixed Martial Arts (MMA) gym in Hong Kong six years ago, where they gained a stable following from fitness enthusiasts and aspiring athletes. In 2018, they took on a new adventure and founded **Brothers Muaythai**, a boutique fitness studio conveniently located in Central. The studio boasts of new facilities, showers and an intimate setting. Classes run twice a day and private sessions are available for booking. Together, they boast an impressive number of fights of over 250 around the world, harnessing numerous awards, belts and championship. Tum is the current undefeated I-One champion for seven years and first ever Challenger Champion in AXN’s Challenger TV show.

**Whiskies & More** is a beverage distribution company focusing on premium spirits. It aims at introducing non-mainstream but high quality whiskies, cognac, rums and other products. Whiskies & More represents independently-owned companies, which are passionate about their products and became its mission to bring that passion to Hong Kong and Macao. Established in late 2016 by a Dutch whisky lover, the business has been steadily increasing both in number of brands traded and its footprint in Hong Kong and Macao. With its newly launched online shop, **Timeless & Tasty**, its products are now also available to retail customers.

Established in 2008, **LuLu Financial Group** is a global financial services and payments solution enterprise that serves banking institutions, business houses, local and international corporations as well as individuals. Headquartered in Abu Dhabi, the Group operates more than 180 branches across Oman, Kuwait, Qatar, Bahrain, India, Bangladesh, the Philippines, Seychelles and Hong Kong. Branded as **LuLu Money** in Hong Kong, the group aims to facilitate secure and instant financial transactions through digitised state-of-the-art systems in the Asia Pacific region. It chose to set up in Hong Kong because the Asia Pacific region is home to some of the most dynamic economies and Hong Kong is one of the most strategic markets. Its office here offers money transfer, retail currency and import and export of currencies services to clients. LuLu Financial plans to move nearly 30 percent of its transactions onto the digital platform by 2020.

Established in 1999 in London, Bovill is an independent, specialist financial services regulatory consultancy. After its opening in Singapore in 2015, the company started its Hong Kong operation in 2017. The company’s sole activity is the provision of high-quality, technically-focused advice and consultancy services on all aspects of regulation. Bovill develops effective solutions to the complex problems of its clients, and do not offer commoditised advice or services.

To reflect the international nature of its clients, Bovill now has offices in the UK, Singapore, Chicago and Hong Kong with experts spanning all aspects of financial regulation. Its Hong Kong office has six regulatory specialists who can help with SFC and HKMA licensing and advice, as well as providing advice on broader international regulatory and financial crime. Bovill combines local market knowledge with a global perspective to help clients thrive in today’s complex regulatory environment.

MASS BRANDED is a high-end streetwear brand for men who want to dress casually without dressing down. The company combines structured designs with a graphic sensibility to create pieces that enhance the male form to make its clients stand out.

Hong Kong is a great place for a small fashion startup like MASS BRANDED. As a producer of high-end streetwear, the city’s fabric district provides access to a wide selection of top quality textiles from around the world. With its local sample-room, the company can have the pieces made and examine the output immediately which allows it to input, amend or make changes on the spot right away. More importantly, Hong Kong still offers small scale but high quality manufacturing options, even though much of the production have moved to Mainland China over the years. Plus, there is a talent pool of professionals that offers excellent craftsmanship.

McNamara Art Projects is an independent art consultancy and curatorial body. The company newly established a 3,500 square feet project space in Wong Chuk Hang, a platform committed to showcasing contemporary, emerging as well as established Western and Asian artists in Hong Kong.

The art programme for the project space will take the form of collaborations with significant Western and Asian galleries who do not have a physical presence in Hong Kong, by bringing a diverse range of art that would not otherwise be shown in the city. The aim is to create deeper engagement between the people of Hong Kong and contemporary art. McNamara Art Projects also provides guidance in shaping public and private collections across Asia region, with a focus on Western modern and contemporary art.

**Merton edX** is a unique entrepreneurship academy for young students. Last year its founder successfully launched, through its sister company Merton Global Ventures, the Silicon Valley Entrepreneurship Workshops for secondary school students in Hong Kong in collaboration with BizSmart Global USA. Merton edX’s mission is to “inspire youth” to help youngsters to realise their dreams by empowering them with a tool box of vital business skills. The company’s message to students of today is that no matter what their strengths and interests are, whether mathematical, technological, visually creative or socially driven, there is a vital role for them to play in the startup world.

Merton edX aspires to contribute to Hong Kong’s knowledge-based economy by inspiring entrepreneurship, one young leader at a time.

Founded in 2012 between London and New York, **Pixelcabin** (“Pixel”) works with some of the world’s most influential companies to engineer their eCommerce solutions, using the Shopify Plus platform. Pixel helps clients by developing bespoke apps with unique features, building integrations to connect with 3PL providers, and embedding with client teams to set up development best-practices and workflows.

The company recently developed an ongoing engagement with a Fortune 500, which started with building a multi-region eCommerce platform for South American and European markets, and more recently has focused on developing a proprietary B2B platform for Dutch market, allowing bar owners to order all of their trade supplies from multiple vendors on a single platform.

Pixel has also worked with startups in Hong Kong to develop their first product to market, and with non-profit organisations in the region to help refine their eCommerce user experience, and is looking to expand its Hong Kong and Asia client base.

Q5 was founded in London in 2009 as companies around the world faced the fallout of the worst financial crisis in generations. Q5 believed that it could offer something different to help global businesses respond more effectively to the challenges confronting them, with benefits that lasted beyond the four quarters of the financial year into ‘Q5’. Q5 provides expert analysis, creates dramatic new strategies, overhauls struggling operations, and ensures right people were put in the right place. Q5 assures that each project brings change that really sticks.

In addition to New York and Sydney, Q5 have set up its fourth office here in Hong Kong, a vibrant international business hub with a diverse range of multinational corporations and local enterprises. The company believes that this is the prime location to extend its reach, and hope to establish a stronger presence in the Asia Pacific region.

Plum is a company of epicureans curating critically-acclaimed meals from all over the city and bringing it to customers’ doorsteps. Its mission is to make easy for people to discover and order the best food from around the city. Plum’s business model is unique in the Southeast Asian food-tech industry. Plum tastes every dish to ensure its quality before putting it on the menu. It charges no delivery fee and the prices are on par with, sometimes even lower than restaurants. Its business model solves the poor unit economics limiting the growth of existing market players while delivering a superior customer experience.

Founded in Hong Kong in 2017, Plum has expanded to over 100 employees with operations in Singapore and Sydney four months after launch. After a successful seed-raising, Pre-A rounds and continuous growth, Plum will be doing a Series A investment round in July 2018.

**Operation Smile** is an international medical charity dedicated to providing free medical treatments for children and young adults in developing countries who are born with cleft lip, cleft palate or other facial deformities. The organisation works in rural areas through organising volunteer teams of doctors and nurses to provide surgical and medical care for underprivileged families. Since 1991, Operation Smile has provided nearly 30,000 free surgeries across Mainland China regaining smiles and self-confidence to lead healthy, normal lives. International standard medical training programmes have enhanced the skills of hundreds of medical volunteers.

Every three minutes, a child is born with a cleft lip, cleft palate, or other facial deformity. Without proper treatment, children experience infections, hunger, and speech problems that lead to untold isolation as they grow up. Surgery could prevent this in as few as 45 minutes. Together, Operation Smile is creating a world with more amazing smiles.

**Peachstate Hobby Distribution Limited** ("PHD") facilitates wholesale distribution of sports trading cards including NBA, MLB, NFL, and soccer. The company decided to come to Hong Kong to open a new branch due to the business-friendly nature of the city as well as the fast-paced opportunities it provides. This is the first location for PHD to expand its business in the region and set up a warehouse and office space in Kowloon Bay.

**sQoolink** is an edTech, big data and online social platform, connecting prospective students and parents with current students, alumni and school representatives for higher education and study abroad advice. The near-peer mentorship is simple and dynamic. Student can ask questions about academics, admissions, costs, or campus life for any schools or locations, and verified mentors will give advises based on their personal experience. sQoolink chose to set up the regional headquarters in Hong Kong due to the large student population studying abroad every year. Together with the office in Singapore, sQoolink serves all prospective Asian students and parents by providing personalised answers to their questions through near-peer mentors. sQoolink is also looking to partner with international and local high schools, educational consultants and agents to bring its mobile app, website and related services to target students and parents.

**Cboe Global Markets** is one of the world’s largest exchange holding companies, offers trading across a diverse range of products in multiple asset classes and geographies, including options, futures, US and European equities, exchange-traded products (ETFs), global foreign exchange (FX) and multi-asset volatility products based on the Cboe Volatility Index (VIX Index).

Cboe’s trading venues include the largest options exchange in the US and the largest stock exchange by value traded in Europe. In addition, the company is the second-largest stock exchange operator in the US and a leading market globally for exchange-traded products trading. Cboe has two offices in the APAC region, Singapore and Hong Kong, which serve as the company’s APAC base. This expanded presence enables Cboe to better serve the needs of investors throughout the region.

unspun seeks to reverse climate change by one percent through 3D fit algorithm, additive 3D weaving mechanisms and localised production. The first product unspun addresses is denim jeans.

With the use of advanced algorithms, fitting denim jeans are produced based on customers’ 3D body scans. Currently the products are created locally, but in late 2018 they will be automated through a 3D weaving machine invented by the company. The localisation of manufacturing would ultimately aid “re-industrialising” Hong Kong, and developing a diversified economy.

With technology developments originated in San Francisco, Hong Kong is unspun, inc’s headquarters in Asia, with most of its business developments and investments carried out here. The company is supported by Hardware Accelerator HAX, recognised by H&M Foundation and incubated by the Mills Fabrica and Cyberport.
