Hong Kong: Asia’s Prime Tourist Destination

Hong Kong is Asia’s prime tourist destination. Annual visitor numbers reached 65.1 million in 2018 of which 78 percent were from Mainland China. The total number of annual visitors is forecast to reach 100 million by 2023, making Hong Kong the fifth most frequently visited destination in the world.

Hong Kong’s GDP per capita ranks high in Asia. The outbound travel market continues to grow in line with the high spending power of the local population. Add to this Hong Kong’s simple tax regime and low tax rate of 8.25 percent for the first HK$2 million profits and thereafter at 16.5 percent, you will find the perfect location to operate your travel services company.

Klook Seeks Expansions into Europe and US via Global Headquarters in Hong Kong

Travel tech company leverages the city’s thriving tourism, government’s tech initiative and international talent pool to continuously grow

“Hong Kong’s proximity to Mainland China and Southeast Asia along with its melting pot culture gives startups a unique advantage to replicate their business models in other new markets.”

Eric Gnock Fah, Co-founder and President Klook Travel Technology Limited

Technology startup Klook is Asia’s largest in-destination service booking platform through which travellers can browse and book the best deals on travel attractions, tours and things-to-do in Asia. The platform was launched in Hong Kong back in 2014 with only three destinations including Hong Kong, Macau and Singapore. Today, Klook is present in more than 120 destinations worldwide with over 3,000 partnering operators, providing more than 30,000 travel services globally through its website and mobile app. Additionally, Klook just announced its Series-C funding with US$60 million from Sequoia Capital, Goldman Sachs and Matrix Partners, bringing total investment close to US$100 million for Klook since three years of establishment.

With 13 offices across Asia, the Hong Kong team remains its global headquarters which houses local Hong Kong operations as well as many central functions such as the Growth Marketing team that collaborates closely with regional user acquisition team, ensuring enterprise-wide strategies are well localised and executed.

According to Eric Gnock Fah, Co-founder and President, who was featured in “Forbes’ 30 Under 30 Asia 2017 List”, the company is looking to enter the Europe and US market in 2018.

He believes that Hong Kong’s thriving tourism industry is a key factor for Klook’s rapid growth. “Hong Kong has the largest influx of global travellers and high outbound travel frequency in the world, which secures a promising market for an in-destination services provider like Klook to grow,” he said.

Gnock Fah remarked that in addition to the Hong Kong government’s support to the growth of new economic activities which leads to a more promising outlook of startup scene here, government initiatives on digitisation such as Smart City Blueprint will also foster an open-minded atmosphere towards new ideas and technology, which will generate more public interest to adopt new ways of living.

Klook Travel Technology Limited

• Set up in Hong Kong in 2014
• Currently has over 400 staff across 13 offices in Asia
