With deep understanding of the Taiwanese tea culture, Amy, Founder of CUPFY, discovered Lugu oolong tea's unique fragrance and decided to launch this tea in Hong Kong by introducing a range of healthy beverages made with love and care.

Hence a range of tea beverages with no added sugar were developed and tailored for sugar-conscious drinkers, so that every customer can enjoy the simple and authentic happiness from sweet tastes. The brand name “CUPFY” means “cup-free” - which is one of the company’s initiatives to help promote environmentally-friendly lifestyle concept.

The founder subsequently teamed up with a like-minded partner to open the first “Cupfy Speciality Oolong” store in Mong Kok, where customers of all ages including those sugar-conscious could find their own cup of tea.

**Eckersley O’Callaghan** is an award-winning structural and façade engineering design practice with offices in London, New York, San Francisco, Paris, Shanghai and Hong Kong. The company works with clients, developers, architects and contractors on extraordinary building projects across the world, motivated by solving technical challenges through intelligent engineering design.

The company’s engagement with architecture and industry underpins its pioneering use of materials to realise projects of exceptional quality, efficiency, and elegance. This is exemplified by its innovative work in structural glass for Apple’s flagship stores around the world including IFC at Central, Causeway Bay and Canton Road in Hong Kong. The company has also collaborated with several famous properties companies in Hong Kong on projects including K11 Musea, 2 Taikoo Place and 2 Murray Road.

**Infobip** is a global leader in omnichannel engagement, powering a broad range of communication channels as well as technology advanced authentication and security solutions, over one, single-interface, scalable and easy to use cloud-based communications platform. The company helps clients and partners to overcome the complexity of consumer communications, grow their business and enhance customer experience - all in a fast, secure and reliable way.

The company has over 60 offices globally offering its messaging platform with the capacity to reach over seven billion mobile devices in over 190 countries connected to over 800 telecom networks. The company invested heavily and held high expectation for APAC. The company serves and partners with leading mobile operators, messaging apps, banks, social networks, tech companies, and aggregators. Over the past decade, the company has grown into an engineering powerhouse employing over 2,000 people helping Infobip change the world with its products and solutions.

**ipulse** is a Hong Kong based multi-disciplined creative agency with a satellite office in the UK. The mission has always been to help local and global brands achieve their business goals focused around three core services, including branding, web design and marketing.

ipulse has successfully delivered effective results for a portfolio of global clients ranging from investment banks, corporate powerhouses, leading Hong Kong events and the local startup communities.

As an agency, ipulse believes that what it creates together with its clients could make a real difference. In 2019, the company launches its first giving back initiative in partnership with Peduli Anak Foundation, helping underprivileged children on the island of Lombok, Indonesia.

**Jobable** is a Human Resources (HR) software and analytics company. The company works closely with corporates, governments and educational establishments to help them drive HR digital transformation. Its employee onboarding software welcomes new joiners, whilst its virtual reality tour product has been enjoyed by established companies.

Jobable also leverages data science to help its clients navigate some of the key challenges in the world of work such as job automation, career pathways, and skill gaps. The company offers direct solutions, whilst also partnering with some of the world’s largest HR consultancies. By enabling organisations to structure, clean, analyse and visualise their data, it can unlock insights which drive key business decisions and help clients to formulate strategies based on facts.
**Malvern College Pre-School Hong Kong** (MCPS) inherits the tradition of Malvern College UK where “Children are at the heart of everything we do”. The school offers an educationally harnessed play programme based on the UK’s Early Years Foundation Stage (EYFS) curriculum through innovative approach for children aged two to five. The newly opened 8,000 sq. ft. Island West campus provides a holistic learning environment by incorporating natural elements and open-ended play equipment such as a play hut, sandpit, and hard and soft play surfaces. Organised around the central indoor play area, the classrooms act as home bases, while numerous focal points in between provide informal learning spaces.

MCPS is one of the first schools in Hong Kong to run the Forest School programme with Level three certified Forest School leaders. MCPS is an international setting that celebrates diversity and each child’s unique background, nurturing pupils in a truly bilingual environment.

**Virtual Touch Group Ltd** is a 3D animation imaging company with a team of world-class fashion tech enthusiast and vision researchers, game designer and visual effect artist. The company envisions a virtual fashion world where every user has a 3D avatar. This 3D animated version enables fashion businesses and consumers to make more precise decisions. Through digitalised avatars and customised clothing technology, the company offers an eCommerce space to make online shopping and brand experiences more engaging and dynamic. The avatar can be applied to the manufacturing side for digital mock-ups to increase the efficiency and reduction in waste.

**Established in London since 1998, Zebra Projects Limited** is one of the market leaders in retail and hospitality design. Many reputable brands consulted Zebra to design and deliver retail and restaurant concepts on a global scale. Through a combination of creativity, a total immersion into its client’s vision and a deep understanding of different global cultures, the company ensures that each brand is not only internationally recognisable but has a sense of place and relates to its target customer. With the new base in Hong Kong and three existing offices in London, Dubai and Phoenix Arizona, Zebra continues to provide international design service to its clients in Asia, the Americas, Europe and the Middle East.

**Health Advances** provides clients with business strategy, scientific and clinical expertise along with a deep knowledge of product development considerations, referral patterns and economic conditions that can impact the adoption of healthcare products and services. Health Advances’ local team, along with its over 160 global employees, will provide strategic consulting support to the healthcare industry in pharma, BioTech, MedTech, and digital health across Asia Pacific, including Greater China, Japan, Korea, Australia, India and South Asian countries. The opening of Health Advances Asia Limited furthers the deep commitment the firm has had to the APAC region for 20 years and its work to help both local and multi-national companies looking to expand their global footprint. Health Advances’ has a locally-based, multilingual Hong Kong team of 12 professionals.

**United States**
**Medallia** is one of the pioneers and market leaders in experience management. Medallia’s award-winning SaaS platform, the Medallia Experience Cloud, leads the market in the understanding and management of experience for customers, employees and citizens. Medallia captures experience signals created on daily journeys in person, digital and IoT interactions and applies proprietary AI technology to reveal personalised and predictive insights that can drive action with tremendous business results. Using Medallia Experience Cloud, customers can reduce churn, turn detractors into promoters and buyers, and create in-the-moment cross-sell and up-sell opportunities, providing clear and potent returns on investment.

Along with a new office in Hong Kong, the company has established offices in Singapore, Japan, and Australia to meet the Asia Pacific region’s demand for Medallia’s CX platform.
